Dear Sir:

Attached with this Information Disclosure Statement is one PTO-1449 form listing documents believed relevant to the above-identified application. The documents cited therein are all either U.S. patents or U.S. patent application publications, and therefore no copies of such documents are enclosed herewith. It is respectfully requested that these documents be considered by the Examiner and that an initialed copy of the form be returned to the undersigned. It should be noted the word "prior" has been deleted before "art" in the form.

Applicants also wish the Patent Office to know that, prior to the invention claimed in the present application, basket assembly fixtures, such as described in the present application, were known. What was not known, however, was the method of assembling a basket assembly feature as claimed in the present application. In the prior art, basket assembly fixtures were traditionally assembled in the vertical as described in the Background of the Invention section of the patent application. In the invention, on the other hand, the basket assembly fixture is assembled in the horizontal.

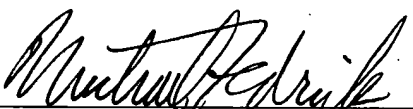

It is believed that this disclosure complies with the requirements of 37 C.F.R. 1.56 and the Manual of Patent Examining Procedures Section 707.05 (b). If for some reason the Examiner considers otherwise, it is respectfully requested that the undersigned be called so that any deficiencies may be remedied.

No fee is believed to be due in connection with this communication. However, if it is determined that a fee is due, the Commissioner is hereby authorized to charge payment of any fees to Deposit Account No. 19-2090.

Respectfully submitted,

SHELDON & MAK
